

last night's report from headquarters stated that the German armies in France everywhere have assumed the offensive against the strongly entrenched enemy.

The Swedish explorer, Anders Er Fridtjof Nansen, the explorer and author, is reported at Christiania to have emphasized amid a roar of applause that Norway must arrange the closest military relations with Sweden for safeguarding its common life and independence.

GAS CASE WILL NOT COME UP AT COUNCIL MEETING

Contrary to expectations, the gas question will not be considered at tonight's council meeting, according to announcement made Monday noon by City Solicitor Ralph Norrell. A second conference between members of council and representatives of the gas company had been arranged for tonight, preceding the meeting of council but owing to an unexpected feature which developed Monday, this second conference has been postponed. It is probable that the matter will be taken up again later in the week.

According to information secured Monday, the gas company has assured the city that an adequate supply of gas from the West Virginia fields can be secured at the advanced rate asked by the company and that a pressure of four ounces at point of consumption would be guaranteed.

It was also learned that opposition to the new rate would probably develop and that an effort would be made to prevent its becoming effective.

HOWELL PLANT WILL OPERATE FULL CAPACITY

The Packing plant known as the Howell Provision Company, which lately has been under the management of Johnathan Meyers, has been reorganized, Pittsburgh and Cleveland capital securing part of Mr. Myers' holdings, the latter retiring to his farm to enjoy a rest after a number of years of business activity.

The new owners have secured the services of G. E. Howell and the plant will be operated under his general management. Many new improvements will be made in the way of installation of modern equipment and the working force will be increased to one hundred. This plant in years past handled 500 head of cattle per week and 100 hogs per day and that same number will be taken care of at the plant from now on.

It is the intention of the new management to operate full capacity daily and none but the best of beef and hogs will be slaughtered.

CHARGES SLANDER; THEN ASKS MERCY FOR SLANDERER

A foreign woman caused the arrest of Gabriel Vamont, another foreigner Saturday on a charge of slander, claiming that he had circulated a report that she was unchaste. Vamont pleaded guilty to the charge and owing to its nature, Mayor Bigbee assessed a fine of \$50 and costs. After the fine was announced, the prosecuting witness and her attorneys requested a suspension of the fine. So earnest was the woman's plea that Mayor Bigbee complied and suspended the amount.

PRESIDENT TO VOTE AT STATE PRIMARY

Washington, Sept. 21.—President Wilson will leave Washington at 8 o'clock tomorrow morning for Princeton, N. J., to cast his vote in the primary election. He will return to Washington tomorrow afternoon.

MEETS WITH ACCIDENT

Miss Margaret Hayes of North Fourth street, who is attending school at St. Mary's Academy at Sheppard, O., met with an accident when she fell down the stairway at the academy last Friday. Miss Hayes has returned to her home to recover from the accident, being attended by Dr. Kennedy.

At Quito, the only city in the world on the line of the equator, the sun sets and rises at 6 o'clock all the year round.

Any these liberal terms at rock bottom cash prices you say

Our new club plan of selling makes them possible.

By getting several people to combine their purchases we are able to sell several watches at no greater cost than it ordinarily takes to sell one watch.

And so we give you the benefit of this saving.

You can't buy a better watch than the South Bend which we are offering on this club plan.

Come in and let us show you one.

We can make this club offer for a limited time only so take advantage of it immediately.

GERMANS' ATTEMPT

(Continued from Page 1.)

came from the direction of the cathedral, and the necessity of bombarding it is regretted.

The French navy acting in conjunction with the British naval forces in the channel and the North Sea, has aided in retaining command of the seas which has been in the hands of the allies since the war began, according to an official French review of the work of their navy.

Przemysl, the strongly fortified Austrian position between Lemberg and Cracow, in Galicia, is engaging the enemy. It is resisting the invading Russians with artillery fire. It is said that a strong German army is at Przemysl.

Berlin says there is no news from the Russian front. The floating of the German war loan is described as a brilliant success.

The official afternoon statement from Paris says that terrific bayonet charges in the vicinity of Craonne resulted in the drawing back of the Germans with heavy losses.

London, Sept. 21.—While the fortunes of battle fluctuate between the lines of the extended front in France, desperate efforts are being made to execute the turning movement on both flanks. The Anglo-French left wing is exerting every ounce of strength to turn the flank of the German general, von Kluck, who is reported as having received heavy reinforcements, while the German left, according to a cautiously worded announcement in Berlin is making equally strenuous efforts to outflank the French right wing on Verdun. Under ordinary weather conditions the Anglo-French task will be easier for the reason that Verdun, heavily fortified, must fall before the French right can be seriously threatened, but on the German right the heavy rains have made such a morass of the valley of the Oise that the allies are hardly likely to move along what would be their natural course, until the German front north of Soissons has been driven back. The high ground between Noyon and Chauny has been heavily fortified by General von Kluck and it dominates the whole valley of the Oise.

That the Germans chose their present defensive position deliberately is indicated by the fact that their heavy artillery rests on cement foundations which must have taken time to construct. Also, the cement had to be allowed time to set.

Some reports received in London declared that the reason for the desperate German counter attacks on Reims is found in a movement of the allies, which has virtually isolated Reims from Laon, a town 30 miles to the northwest. If this is true, all of General von Kluck's marvelous strategy in protecting his sorely pressed left wing will have proved futile.

More or less definite rumors continue to circulate in London to the effect that the Germans are preparing a great retreat from France on their own border fortifications. The latest of these is a story related by a French officer who has returned to Paris.

This Frenchman declares that an aeroplane reconnaissance has given rise to the conviction that a large portion of the German force is retiring, accompanied by trains of heavy stores and leaving only 200,000 men to cover the retreat.

One reason for the dearth of news from the battle front is to be found in the bad weather which has rendered ordinary signalling and aeroplane scouting unreliable. Stories now following through set forth that the Germans made desperate efforts, the middle of last week to recapture the ground they had lost along the river Aisne.

Day and night the assaults continued. The Germans placed into action 10 bands of panders, military air, hurled masses of men on the heavily constructed entrenchments which the allies had dug the trenches, as a protection against the ruthless artillery concealed on the heights above them. It was cold steel against cold steel and ended in the allies holding their desperately won positions.

Reims, where the ruins of the famous cathedral are still smoking, is likely to prove an object of controversy long after the military now in

the field have ceased to contend for its possession.

The Germans claim that the cathedral was in the line of fire and that it was impossible to save it in spite of their instructions to spare the building.

As had been anticipated, a check has been given to the operations of the victorious Russians in Galicia by the strong fortress of Przemysl which has opened fire with artillery on the Russian invaders.

According to advices received here the advance of the Serbo-Montenegrin forces into Austria continues while the Montenegrins are reported within a few miles of Sarajevo, the capital of Bosnia.

According to this intelligence a combined Serbo-Montenegrin army expects to enter Sarajevo within a week.

SERBIAN REPORT SAYS AUSTRIANS ARE PANIC STRUCK

(Associated Press Telegram)

Nish, Serbia, via London, Sept. 21.—An official communication reviewing the Serbian campaign says:

"The enemy, retreating from Visegrad, Bosnia, 40 miles southeast of Sarajevo, abandoned all its stores. Our troops seized 20,000 kilograms (about 44,000 pounds) of flour, 30,000 tins of meat, many blankets, a field hospital with 100 wounded and all medical stores and forty railway wagons.

"The Montenegrins, after carrying the fortress of Fortica and Gorash in Bosnia, captured Jabuka on September 16 and took Rogatica on the 17th.

"The morale of our troops is excellent, but the Austrians are completely demoralized and are flying panic-stricken.

"The Montenegrin army is only 17 kilometers (about ten miles) from the Bosnian capital and has captured a large amount of booty."

FRENCH PROTEST THE BOMBARDMENT TO OTHER NATIONS

(Associated Press Telegram)

Bordeaux, Sept. 21.—The French foreign office has forwarded to neutral governments a protest against the German bombardment of the Cathedral of Reims, couched in the following terms:

"Without being able to invoke even the appearance of military necessity and for the mere pleasure of destruction, German troops have subjected the Cathedral of Reims to a systematic and furious bombardment. At this hour the famous Basilica is but a heap of ruins.

"It is the duty of the government of the Republic to denounce to universal indignation this revolting act of vandalism which, in giving over to the flames this sanctuary of history, deprives humanity of an incomparable portion of its historic patrimony."

BRAVE GENERAL WAS SHATTERED WITH HIS HORSE

(Associated Press Telegram)

London, Sept. 21.—The correspondent of the Daily Mail in France describes the death of General Neil Douglas Findlay of the royal artillery as follows:

"When at dawn on Saturday the British advance continued toward Soissons, the enemy was fighting an exceptionally fierce rear guard action. A terrible shell fire was directed against our artillery under General Findlay, temporarily situated in a valley by the village of Prize. It seemed a matter of moments when we should have to spike our guns and General Findlay saw the urgency for action.

"One by one our guns began to blaze away and the general had a word of encouragement and advice for every man. In vain his staff tried to persuade him to leave the danger zone.

"Our range was perfect, the German fire slackened and died away and with a yell our men prepared to advance. The outburst came too soon. One parting shell, exploding in a contact with Findlay's horse shattered man and beast."

"Boys," his voice echoed down the line, "we are going to get every gun into position." Then deliberately the general approached the regimental chaplain, kneeling beside a gunner. Here are some of my personal belongings, chaplain. See that they do not go astray.

Divine Power to Be Exercised by Christ's Kingdom.

PASSING OF THE OLD ORDER

Many of the Psalms Messianic—Figurative Descriptions of the Work of the Millennium—Passing Away of Sin and Selfishness—A New Order of Peace and Righteousness—The Heavenly Over-Lord Master of the Situation—Glorious Outcome of Joy and Blessing to All Mankind.

Sept. 20.—Pastor Russell's discourse today dealt with the symbolic language of the Psalms. His text was, "Therefore will we not fear, though the earth be removed, and the mountains be carried into the midst of the sea" (Psalm 46:2). Those who have seen the beautiful film, "Christ Walking on the Sea," in THE PHOTO-DRAMA OF CREATION, will find the more readily appreciate the line of thought which the Pastor set forth. He said:

I have chosen for my text a symbolic prophecy which I believe to be rapidly bearing fulfillment. All Bible students recognize the fact that many of the Psalms are Messianic; that is to say, they apply to the time of the inauguration of Messiah's Millennial Kingdom. Some of them detail the joy, peace and blessings which will then prevail amongst men, when the great leveling processes of that time will raise all the worthy poor and degraded and will humble all the proud, establishing society under such conditions that the new order of things is symbolically styled in Scripture "a new heaven and a new earth, wherein dwelleth righteousness." Others of the Psalms describe in highly figurative language the work of the Millennium.

By way of illustration the Pastor quoted at length from Psalm 46: "Gird Thy sword upon Thy thigh, O Most Mighty, with Thy glory and Thy majesty; and in Thy majesty ride prosperously because of truth and meekness and righteousness; and Thy right hand shall reach out terrible things. Thine arrows are sharp in the heart of the King's enemies; whereby the people fall under Thee." Here, he declared, the great Redeemer is pictured as the glorious conquering King of the Millennial Age, and His victory over every opposing influence is emphasized. As the Prophet Isaiah says, "Every knee shall bow, every tongue shall swear to the King of earth. His right hand, which shall reach Him terrible things, is an expression symbolic of the Divine Power which will be exercised at the inauguration of the Kingdom. The sharp arrows that will pierce the King's enemies to the heart and cause them symbolically to fall before Him represent His messages of truth and grace, which will then conquer as they do not now, except in the case of a few arrows of God's Word is furnished us

in the account of St. Peter's sermon on the Day of Pentecost. There the Apostle preached the Truth plainly, thrusting in the "Sword of the Spirit" up to the hilt. He told the hearers that they and their rulers had crucified the Prince of Life. The record is that "they were cut to the heart"; and this was the greatest blessing that could possibly have come to them (Acts 2:23). Similarly, during the Millennium, the arrows of Truth will smite down all opposition; and mankind, cut to the heart with proper appreciation of their own sinfulness and of God's mercy, will fall before the great King, accepting mercy upon His gracious terms of full surrender.

The Day of Trouble Pictured.

The Psalm of which our text is part is a Messianic Psalm. Prophetically and symbolically it tells about the trouble incident to the passing away of the present order of sin and selfishness and the inauguration of the new order of righteousness and love under the great Mediatorial Kingdom of Christ. Whether the events predicted in Scripture come to pass in our day or not, we hold that they will come and will be in full complement with these prophetic pictures; for they were surely written for our instruction, as St. Paul declares.—2 Timothy 3:16.

As Bible students we do well to take heed to every item of the Divine revelation, in order to keep ourselves in touch with the Infinite One and in sympathy with all the features of His great and wonderful Program. Let us note the particulars of the Psalm in detail.

The Psalm begins with the beautiful assurance, "God is our Refuge and Strength, a very present Help in trouble." How comforting! How strengthening! Those who have entered into covenant relationship with God through Christ, through faith and consecration, and who are abiding in His love, may feel serene in every trouble. Not merely in the final trouble, with which sin and sorrow will be brought to an end, not merely when Satan shall be bound, still God be the Refuge of His saints, but in all times and under all circumstances, will "the peace of God which passeth all understanding" keep the hearts of His faithful people.

"Therefore will we not fear, though the earth be removed, and though the mountains be carried into the midst of the sea." Fear is the great torment of the majority of our race. It is the lash which the Adversary uses to drive away from God those who need His sympathy, love and succor. To such the Lord speaks, tenderly saying, "Come unto Me, all ye that labor and are heavy laden, and I will give you rest." God declares His name to be Love. Through the Prophet Isaiah He says, "This people's fear toward Me is taught by the precepts of men"—not by His Word. He would have us trust Him as a great, loving Father; for He says, "Like as a father pitieth his children, so the Lord compassioneth those who reverence Him." (Psalm 103:13.) As love, more love, perfect love, comes into our hearts, if more and more casts out the fear which the Adversary would inculcate and which has burned into men's minds and consciences the "doctrines of demons," to which the Apostle Paul refers, 1 Timothy 4:1.

To His people the Lord says, "Fear not their fear, neither be afraid." "Let the peace of God, which passeth all understanding, rule in your hearts." Be faithful; be trustful! Accept the assurance that "all things shall work together for good to those who love God, to those who are the called according to His purpose." This class will not fear when the earth shall be removed and when the mountains shall be carried into the midst of the sea. They might indeed be astonished and in trepidation if the reference were to literal mountains; but the language is figurative. The people of the Lord, under His instruction, will not be in darkness, that the Day of the Lord shall overtake them as a thief, although it will come as a snare upon the whole world.—Luke 21:35.

In the symbolism of the Bible the term earth is used to represent the social structure; for the mountains, which constitute the backbones of the continents, symbolize the kingdoms of the world, supported by the social structure. As the earth represents the fixity of the social order, the sea represents the restless, turbulent, dissatisfied classes which lash against the "earth" and continually seek to swallow it up. The removal of the "earth" symbolizes the disturbance of the social order. The swallowing up of the "mountains" by the sea represents the overwhelming of some of the great kingdoms of the earth by the uprising of the people in anarchistic rebellion against social order.

The fact that the Scriptures prophetically describe the overwhelming of the social order and the great governments of the earth must not be understood to signify that the Bible counsels revolution or anarchy. On the contrary, God's people are counseled throughout the Scriptures to live peacefully with all men, so far as possible. They are instructed not to use carnal weapons, not to take to the sword for the settlement of disputes, but rather to suffer injury. They are counseled that God is the great Over-Lord, and that although He is not now ruling directly amongst men He is fully the Master of the situation in that at any time He could overthrow all of His opponents.

God does not acknowledge that His will is now done in the earth, but He tells us that by and by it will be done here, and He encourages us to pray for it, to hope for it and to wait for it. He tells us that Satan is now the "Prince of this world" by virtue of the fact that he deceives the minds and the hearts of the majority. God would have His people understand something of His great Program, but He would keep this hidden from all others. Hence arises the impossibility of explaining spiritual things to a carnal mind (1 Cor. 2:14). "None of the wicked shall understand."—Daniel 12:10.

Divine Supervision of Human Affairs. The great Creator has contented Himself with such a supervision of this world as leaves much responsibility for human affairs in human hands. He merely interposes to raise up or to cast down when the interests of His Program may demand. For instance, take the case of the Pharaoh who was raised to the throne of Egypt in Moses' day. There God raised to the throne a man of great determination, and hindered from reaching the throne other men not so favorable to the carrying out of the Divine Purposes. Thus, without interfering with the free moral agency of the King of Egypt, God used the wrath of man to praise Him, and the remainder He restrained. Similarly, He had previously raised Joseph to the governorship of Egypt for His own purposes. The Psalmist describes the tumult of that day of overwhelming trouble, when God's Kingdom will be established.

lished, saying of the sea that will swallow up the mountains. "The waters thereof roar and be troubled; the mountains shake with the swelling thereof." It is probably true that such socialistic and anarchistic roarings have many times in the past caused the kingdoms of earth and their rulers to tremble. But, according to the Scriptures, some day the final catastrophe will occur. Who can tell how near that day may be!

Quite a large number of earnest Bible students concur in the thought that such a climax is indicated in the prophecies, and that it will be reached in the year 1915. But be the date as it may, the fact remains. The prophecy which we are examining is nearly three thousand years old, but it is as good, as sure and as meaningful today as ever it was.

We are not of those who would harass the minds of our fellows with fear. Rather would we point them to the fact that behind this cloud of trouble there is a glorious "silver lining" of Millennial joy and blessing for all the families of the earth. Rather would we encourage all who have the hearing ear to zeal and faithfulness in their consecration, that they may "make their calling and election sure" to a share in the Kingdom glories and "escape those things coming upon the earth." In a word, the Gospel of Christ is not a message of damnation, fear and torture, but "Good Tidings of great joy which shall be unto all people," as the angel declared.

Deliverance of the Church Pictured. In the fourth and fifth verses of Psalm 46 the Church of Christ is symbolically pictured as the City of God, His dwelling-place; and the Truth is represented as a river, making the City clean, fresh, glad. The proclamation is made, "God is in the midst of her; she shall not be moved! God shall help her early in the morning."—early in the Millennial morning. The Church is to be "a First-fruits unto God." Her salvation as the Bride of Christ will be accomplished early in this Millennial morning.

Oh, how glad will be all those accounted worthy of a place in that elect Church—the Church of the First-born, whose names are written in Heaven! The promise, "She shall not be moved," is in agreement with the first verse in assuring us that the people of God will be preserved from fear, doubt and misunderstanding of the events of "Time of trouble, and that their

PAIN IN THE BACK

Do not worry about a pain in your back. The worst will do you more harm than the pain. The serious disease of the kidneys, or never produced such pains as the cause of most backache is muscular rheumatism, which is a form of muscular rheumatism, so is said back.

Sufferers in any form of muscular rheumatism of the joints, should keep the general health at the highest standard by the use of a non-alcoholic and Pink Pills, and eat good nourishing food without too much restriction and good blood. The best remedy for muscular rheumatism is Dr. Williams' Pink Pills. It will often quickly relieve the pain and as they build up the system, the rheumatism will disappear. In this way many rheumatic sufferers have found relief. "Up the Blood," which is a treatment of rheumatism from the Dr. Williams' Pink Pills, N. Y. It sells Dr. Williams' Pink Pills.

faith will enable them to triumph at a time when others will be in great distress and perplexity, as our Lord foretold.—Luke 21:28.

"The Gentiles Raged."

Beginning with the 6th verse, the Prophet gives a brief synoptical picture of the Time of Trouble and its consummation and of the inauguration of universal peace. "The heathen (Gentile peoples) raged." These words describe the tumult which will prevail amongst humanity before the climax of the great Time of Trouble is reached. Angry voices arise from public meetings, and in the more private meetings of the lodges of Labor and Capital, as well as through the columns of the Press to the extent permitted. In the various nations there is a fear of tumult through the raging of the public Press, and everything possible is being done to restrain it. In some countries the Press has been "muzzled" for some time past.

Whoever sees that anarchy is the most dreadful terror confronting civilization must realize the wisdom of reasonable restraints upon his own tongue and upon the tongues of others. Nevertheless, the Scriptures show us that all effort to suppress the tumult and the angry voices of men selfishly raging against each other will fail.

The prophetic picture continues—"God uttered His voice, the earth melted." The unfaithfulness of humanity, the clamor of greed, both in rich and in poor, will be answered by the Almighty, "Giver of every good and perfect gift." He will "utter His voice"; or, as another Prophet declares, "He will speak to the people in His anger," for their correction, for their removal. The result will be that the symbolic earth (society) will melt—the social structure will disintegrate. Another Scripture declares that so great will be the disintegration that "every man's hand will be against his neighbor."

But the Prophet hastens to assure us that in the midst of all this tumult the Lord will be with His consecrated people. We read, "The Lord of hosts is with us; the God of Jacob is our Refuge." This promise applies primarily to the consecrated Church of Christ—Spiritual Israel; but it also applies secondarily to Natural Israel, the Jewish nation. These will participate in this Time of Trouble, but will be saved out of it. As another Prophet declares, "It is even the time of Jacob's trouble; but he shall be saved out of it."—Jer. 30:7.

In this Time of Trouble the Jews, the saints, will be gathered to their Heavenly home. After this has taken place, Divine favor will begin to return to Israel, as pointed out by the Apostle in Romans 11:25-30.

The Psalm closes with a picture of the devastation which will prevail throughout the world as a result of human selfishness and blindness. Capital and Labor will rise to a terrible cataclysm of anarchy, awful for rich and poor alike. Only God's saints will then have peace; and it will be the result of their knowledge of the grand outcome of their faith in God and of their willingness to accept whatever His providence may send.

All this trouble, however, will but prepare the world to realize that although men may plan and arrange ever so wisely and well, all their plans will prove futile as long as selfishness and ignorance are in control. It will convince all that the only feasible way of securing the ability to be the setting up of a strong and righteous government, which will enforce the principles of righteousness, until gradual is the surest method of securing a more favorable influence, give place to tender heartedness—the image of

God, in which Adam was created and which was lost through disobedience. Mark the grand symbolic apostrophe with which the Psalm closes. May its lessons draw us near the Fountain of Grace and give us rest, peace and joy! "He (Immanuel) maketh wars to cease unto the end of the earth; He breaketh the bow, and cutteth the spear in sunder; He burneth the chariot in fire. Be still, and know that I am God; I will be exalted among the heathen (Gentiles); I will be exalted in the earth."

MEAT INJURIOUS TO THE KIDNEYS

Take a tablespoonful of Salts if Back hurts or Bladder bothers—Meat forms uric acid.

We are a nation of meat eaters and our blood is filled with uric acid, says a well-known authority, who warns us to be constantly on guard against kidney trouble.

The kidneys do their utmost to free the blood of this irritating acid, but become weak from the overwork; they get sluggish; the eliminative tissues clog, and thus the waste is retained in the blood to poison the entire system.

When your kidneys ache and feel like lumps of lead, and you have stinging pains in the back or the urine is cloudy, full of sediment, or the bladder is irritable, obliging you to seek relief during the night; when you have severe headache, nervous and dizzy spells, sleeplessness, acid stomach or rheumatism in bad weather, get from your pharmacist about four ounces of Jad Salts; take a tablespoonful in a glass of water in a few days your kidneys will act fine. This famous salts is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to flush and stimulate clogged kidneys, to neutralize the acids in urine so it is no longer a source of irritation, thus ending urinary and bladder disorders.

Jad Salts is inexpensive and cannot injure; makes a delightful effervescent lithia-water drink, and nobody can make a mistake by taking a little occasionally to keep the kidneys clean and active.

NOTICE OF APPOINTMENT Estate of Mary J. Farmer deceased. Nellie C. Berry has been duly appointed and qualified as administratrix of the estate of Mary J. Farmer, late of Licking County, Ohio. Dated this 12th day of Sept., 1914.

JOSEPH HUNTER, 9-11 Main Street, Probate Judge.

Chalybeate Spring Water is pure. For prompt deliveries call Auto Phone 1318, or Bell 741-R. Office 24½ W. Main, opposite Advocate of Peace.

EASY TO DARKEN YOUR GRAY HAIR

Try This! Mix Sage Tea and Sulphur and Brush It Through Your Hair, Taking One Strand at a Time.

When you darken your hair with Sage Tea and Sulphur, no one can tell because it's done so naturally, so evenly. Preparing this mixture, though, at home, is messy and troublesome. For 50 cents you can buy at any drug store the ready-to-use tonic called "Wyeth's Sage and Sulphur Hair Remedy." You just dampen a sponge or soft brush with it and draw this through your hair, taking one small strand at a time. By morning, all gray hair disappears and, after another application, or two, your hair becomes beautifully darkened, glossy and luxuriant. You will also discover dandruff is gone and hair has stopped falling.

Gray, faded hair, though no disgrace, is a sign of old age, and, as we all desire a youthful and attractive appearance, get busy at once with Wyeth's Sage and Sulphur and look years younger. Agents, Halls Drug Store.

"TIZ" FOR TIRED SORE, ACHING FEET

Ah! what relief. No more tired feeling, no more burning feet, swollen, inflamed, aching feet. No more pain in corns, callouses or bunions. No matter what ails your feet or what under the sun you've tried without getting relief, just use "TIZ."

"TIZ" draws out all the poisonous exudations which puff up the feet; "TIZ" is magical; "TIZ" is grand; "TIZ" will cure your foot troubles as you'll never know or draw up your feet in pain. Your shoes won't seem tight and your feet will never, never hurt or get sore, swollen or tired. Get a 25 cent box at any drug or department store, and get relief.

Licking County Roads.

Nobody knows better than the esteemed Newark American-Tribune that the Roads plank in the Republican state platform was a huge political blunder yet the American Tribune, like other newspapers that are supporting the Willis ticket, is doing its level best to make it appear that the road improvement work should be left entirely to the counties.

In the effort to sustain its position the American Tribune refers to the Newark-Granville road and makes assertions that are not in harmony with the facts. The Tribune says:

"There is a fair sample in Licking county of the great unreliability of success in roadmaking under the supervision of the State Highway Commission. It is along the Granville road between that place and the county seat. The contract calls for five feet of berme roadway along each side of the cement but there is only about two and one-half feet on each side or one-half of what the plans and specifications call for. The present width of the roadway is hardly sufficient to permit the passing of two vehicles and when the one or the other is forced off to the side of the road there is danger of an upset, where the ditch runs close to the road. In fact several accidents have happened in that manner and they will continue to happen until the road is completed according to the contract. The people who live along the line of the road and who are the persons who use it the most are complaining of having an incomplete road to pay for when they are assessed a heavy tax to pay for a good road. Had the work been done under the supervision of the county commissioners, as the plan in the Republican platform asks for, there would have been reason to believe that the wishes of the people along the road would have been gratified."

The road in question extends from Charles Hartshorn's residence to the village of Granville. From the Hartshorn residence to the intersection of the Granville road and the electric railway line (excepting 400 feet) the berme banks are five feet in width making a road 26 feet wide as called for the specifications.

It developed that the construction of a 26 foot road from the railway intersection to Granville would necessitate the removal of all of the

hundreds of beautiful shade trees that line the roadway and rather than sacrifice those splendid trees the width of the berme was reduced to three feet as good judgment directed and in order that full value should be rendered by the contractor, the state highway department increased the toll at the "Dug Away" hill and the state and county received full value from the contractor. The grade was greatly improved and the trees were preserved.

Which would have been better—widen the berme all the way to Granville or do as was done, make a three-foot berme and save hundreds of fine trees all along the route?

So far this year the state of Ohio has certified on State aid work in Licking county \$35,000 for the Johnstown-Utica and the Summit Station road and on the National road in Licking county \$50,000. The present state administration was directly instrumental in getting \$70,000 from the federal government certified this year for the National road work in the county.

The state is also spending this year \$1,000 on refilling joints and improving the Newark-Granville road and the state is also spending \$5,000 in giving the Jacksonville road in this county a tar top, three-fourths of this work having already been done. This \$6,000 all comes into Licking county from the state highway department without local taxation.

The farmers and others who are especially benefited by good roads know that the present state of development in this county would not have been reached without state aid and it is folly to attempt to deceive them by arguing that the present efficient method should be abolished and that a return to the old county system of road improvement should be made.

Sept. 21 in American History.
1790—First great fire in New York city: 500 buildings burned along the Hudson in the west side district.
1820—Joseph Rodman Drake, the poet, died: born 1795.
1911—Canada rejected reciprocity with the United States by popular vote.

ASTRONOMICAL EVENTS.

Erecting stars: Mercury, Jupiter, Venus, Mars. Morning star 8 to 10. Planet Mercury in conjunction with the moon 4:48 a. m. Planet Mars in conjunction with the moon 10:27 p. m. 5 degrees north.

Sun Praises Wilson.

The New York Sun, whose opposition to President Woodrow Wilson has been more pronounced than that of any other newspaper in the United States that tries to convey the impression that it is independent, has the following under the head "Mame and President Wilson"

The Administration and the Democratic majority in Congress should be cheered and comforted greatly by the result of the election in the only State voting before November. The President in particular is warranted in regarding the Democratic victory as a direct vote of confidence.

Notwithstanding the return of many thousands of Progressives to the regular Republican ranks the Wilson Democrats carried the State for Governor and re-elected by a greatly increased plurality the only Maine Congressman of the President's party. The result in the Second district is especially significant when the circumstances are considered. This is the staunch old Republican territory represented for many years by Nelson Dingley, Jr., and latter by Charles E. Littlefield.

With the manufacturing interests of Lewiston and the shipbuilding interests of Bath, the Second district seemed perhaps the most likely place in the Union where the protectionist reaction would begin and the protest would be earliest heard against much that the Sixty-third Congress has done to the tariff and in the way of actual proposed legislation affecting shipbuilding. Mr. McGillicuddy's seat was contested this year by Harold M. Sewall, a Republican of exceptional ability and prestige. No candidate could have put the case more effectively to the voters from the point of view of these local interests, yet against all the apparent logic of the situation, Mr. McGillicuddy's plurality of 1,281 in 1912 was increased fourfold on Monday.

These are not political developments of the sort that seemed probable or even possible two months ago. There certainly has not been during that time a marked increase in popular enthusiasm over Democratic leadership or Democratic conduct in the House of Representative's independent of the President's leadership and performance. It is hard to escape the conclusion—and we are going to express candidly our conviction on the subject—that the strength of the Democratic position at the present time is primarily due to the people's admiration of the manner in which Woodrow Wilson has met the emergency and carried the heavy burden of responsibility forced upon him by the European war. There is a patriotic reason for sustaining him now, and it is difficult to sustain the President without helping the party which he leads.

By the Way

If a woman's ankles were susceptible to weather conditions they would be frozen off every winter.

If a man envies a woman anything it is her ability to keep her stockings from wrinkling.

A few people put it off until tomorrow. The others until next week.

If a man is going to grow whiskers he might as well go the limit and grow side whiskers. When a man is going to be hanged anyway, the nature of his offense is unimportant.

A prophet is a man who can peer into the future and discern things that are not true.

When George Gress grew moody and irritable a few weeks ago his wife at once attributed his mental condition to the fact that he had ceased to love her. But, when the family physician finally was called in, he diagnosed the case as one of typhoid fever and two trained nurses are now in attendance at the bedside of Mr. Gress.

Eph Wiley, who owns a raincoat, says he prefers the man who whispers it in your ear to the one who slaps you on the back. But a lot of us are without the protection which a raincoat affords.

Spirit of the Press

For Senator, Winson E. Baldwin.

In nominating for United States Senator their Governor, Simon E. Baldwin, the Connecticut Democrats have served their party by serving the State. No other candidate mentioned could have appealed with such force to intelligent voters in very few states where Senators are to be chosen this year are men of Gov. Baldwin's eminent fitness put forward by either party. New York World.

Discussing Peace.

President Wilson's offer of mediation is open to all the belligerent powers and will remain open. The President can do no more on his own initiative. Proposals looking toward peace must now come from some of the Government at war. Peace is not made as war is made. War can be declared by a stroke of the pen, but peace is not decreed in so summary a way. It requires time. New York World.

The Failure.

"Is Christianity a failure?" asks an earnest contemporary. Nope; but on the quiet, some Christians are. Washington Post.

New York Senatorship. It looks now as if the voters of New York will be called upon in November to choose between Ambassador Gerard and James W. Wadsworth, Jr. for Mr. Root's seat in the senate. They are excellent men. They have had experience in public affairs, Mr. Gerard as a diplomat, and Mr. Wadsworth as a State Legislator. Both are party men in good party standing. Mr. Gerard is popular in Tammany circles, and is in Berlin by favor of the President. Some of the Democratic reformers do not like him, but present no strong case against him. Mr. Wadsworth has a great many friends, as the result of an eminence name worthy worn, and abilities demonstrated in office. He is a fine example of that young American in circumstances to lead a life of leisure and pleasure, but choosing the nobler course and living a life of industry and usefulness. He took to politics naturally—it was in the blood—and at an early age made a success of his activities. If he reaches the Senate he will be among the youngest members of the body. Washington Star.

A New Trade Mark.

The new trade mark, "Made in the United States," should serve to stimulate the manufacturers of this country. With the present opportunities of extending our foreign trade, it is certain that nothing short of negligence will prevent such a trade mark from becoming a standard of excellence the world over. Springfield Sun.

Pointed Observations

Sir Edward Carson, the Ulster ir-reconcilable, has married the niece of a Nationalist member of parliament. The war in Ireland is evidently over.—Pittsburg Dispatch.

The European governments ought to quit talking about who caused the war and begin to talk about who will end it.—Chicago Herald.

Japan wants four times as much of our cotton as she ever did before, but it won't be surprising if some people will want to keep her from getting it just because it's Japan.—Dayton News.

Another of those occupations which, though honorable and useful enough, one prefers to see someone else perform, is taking the sea for concealed mines.—Cleveland Leader.

Summer is staying on the job to the finish, tomorrow, Tuesday, being the last day.—Zanesville Signal.

The announcement that Senator LaFollette has "presidential plans" is an old, old story that runs in serial form every four years.—Memphis Commercial Appeal.

Whatever the result may be in Europe, there will still remain heaven, hell and the United States of America. Kansas City Star.

While men continue to make cannon and use them, isn't it almost useless to pray for peace?—Detroit Free Press.

Speaking of militarism, some one says "a loaded gun will always go off." The trouble was that Europe did not know it was loaded.—Pittsburg Dispatch.

Governor Cox of Ohio Is Coming

Hon. James M. Cox will visit Licking County on Wednesday, Sept. 23, and will speak at seven different points in this county on that date—

At Franklin Township House

9 a. m.

At Gratiot 10:15 a. m.

At Toboso 11:30 a. m.

At Fallsburg 2 p. m.

At Rocky Fork School 3:30 p. m.

At Purity 4:45 p. m.

At Utica 7:30 p. m.

Governor Cox, who is one of the best of platform orators, has a message for the people of Licking county, and everybody in the territory above named is cordially invited to hear him. The Governor and his party will leave Newark at 8 a. m. in automobiles and will attend the meetings at the time and places above mentioned. The invitation to turn out and hear Governor Cox is cordially extended to everybody.

Uncle Walt

THE EXILE.

Do they think of me at home, do they ever think of me, as through weary years I roam, sadly over land and sea? Do they speak of how I spread soap upon the kitchen stair, so that father pushed his head through the cane seat of a chair? Do they ever recollect what he said when he came down, all his Sunday garments wrecked, and a lump upon his crown? Often when the sun sinks low, crimsoning the sea's white foam, I would give the world to know if they think of me at home. Do they speak of how I saved Grandpa's chair, so she fell about a rot with her tributes in the air? Do they evermore recall how I broke the window panes with my little bat and ball, when the lush 'ot evening reigned? Though I'm old and tired and blue, with white hairs upon my dome, I'd be cheerful if I knew that they think of me at home.

WALT MASON.

JUDGE JEWELL

PRESIDING AT THE OPENING OF THE FALL TERM OF COMMON PLEAS COURT

Number of Cases On Today's Calendar Including Two for Divorce

Judge C. J. Jewell, of Delaware, arrived in the city on Monday morning, and opened common pleas court. The case of Burr D. Jackson, as administrator vs. Laura F. Preston, et al., was heard to the court. After the court heard the evidence, the case was taken under advisement. The matter heard to the court was on motion to set aside a sale of real estate near Highwater.

The following cases on the assignment will be tried in their order: Emma Holler vs. Samuel Holler, a suit for divorce and alimony. Wm. H. Coon vs. Hazel Coon, a suit for divorce and custody of minor child.

The case of H. D. Ashbrook, administrator de bonis non of the estate of Hiram M. Ashbrook, deceased vs. Alonzo Gibbs will be taken to the Court of Appeals. Plaintiff sued to recover upon promissory note. The court found for Ashbrook in the common pleas court. Gibbs will appeal.

Habeas Corpus Case.
Probate Judge Robbins Hunter was engaged in hearing further testimony Monday afternoon in the Fickie habeas corpus case. The case is one in which Fickie seeks release from the county jail where he is confined for violation of a suspended sentence by Mayor R. C. Bigbee.

Justice Scott's Court.
On the complaint of Herschel E. Stewart, affidavits were issued in Justice Fletcher Scott's court for Wesley and "Teddy" McGill, said to be sub-contractors on a part of the National pike work. The trouble, alleged to have occurred several days ago, resulted in a fight, according to the affidavit of the complainant.

Justice Jones's Court.
Squire D. M. Jones Saturday evening officiated at the marriage of Gavilo Daramus and Sophia Sarb, natives of Austria-Hungary, at his court in South Second street. Todaro Sarb, a brother of the bride, acted as interpreter. A wedding feast was served after the ceremony at the groom's new home.

Cross Petition Filed.
A cross petition has been filed in the divorce case of Anna Holland vs. Robert Holland. The brief recites that the plaintiff has failed to establish a sufficient ground for divorce and asks that he be given the divorce, the custody of their four children and the free use of his money to take care of their bringing up. The brief was filed with Clerk B. O. Horton, Monday.

Viewing Ditch.
The commissioners left Monday morning on an inspection trip along the route of the Martin ditch in Union township, where they expected to be busy the greater part of the day.

Admitted to Probate.
The will of Benjamin Green, late of this city, was admitted to probate late Saturday afternoon.

Appointed Administrators.
Ethel Pratt Simpson and Harley O. Pratt have been appointed administrators of the estate of the late Oscar E. Pratt of Monroe township. Bond was required in the sum of \$14,000.

Real Estate Transfers.
Ella C. Bassett to George J. Spillman, lots 68 and 69 Newark, \$700. Girard E. Resanency to George Spillman, lot in Newark, \$1. etc. Harrison Bell to Charles A. Bell, lot 255 in Utica, O., \$100. Elizabeth Stevenson to Charles F. Nickel, lot in Utica, \$1. etc. Harry L. Everett to Clinton P. Smith, lot 98 in Utica, \$1. etc. Frank J. Harrington to Halford H. Simpson, lot in Newark, \$1. etc.

Marriage License.
Gavilo Daramus and Sophia Sarb, natives of Austria-Hungary, now residing in this city, Justice D. M. Jones named to officiate.

Henry E. Roach, glass worker and Miss Mary Blanche Pugh of this city, Rev. A. B. Cox to officiate. Lawrence Parrish, R. & O. brakeman and Miss Reubla Beatrice Rizzard, both of this city, Rev. L. C. Sparks to officiate.

Van B. Hensley, farmer, and Miss Gertrude E. Wright, both of Palaskala. Walter D. Nickerson, porter, and Gertrude R. Rossin, both of this city.

crop belt had a bearish effect today on the wheat market. The arrivals, instead of continuing, unusually heavy were under the total reached at the corresponding time a year ago. Increasing European demand tended also to lift values. After opening $7\frac{1}{2}$ to $1\frac{1}{4}$

THE QUESTION OF OHIO'S HIGHWAYS

Should They Be Improved By the State, Assisted By the Counties, or By the Counties, Unassisted By the State—Difference Between the Two Systems.

Ohio's public road system comprises a total of approximately 90,000 miles, outside of municipalities, of which about 28,000 miles are classed as "improved," leaving about 62,000 miles to be improved. The principal roads of the state are designated as "intercounty" roads, and these make up about 9,400 miles, or 11 per cent of our total road system. Having in mind the necessity for the immediate repair of the main arteries of the state, the general assembly of 1913 designated about 2,400 miles of the inter-county system as "main market roads," and provided funds for the construction, maintenance and repair of the whole through the passage of the so-called "Hite-Hudson" half-mill levy law.

It was estimated that an annual levy of one-half of one mill on all of the taxable property of the state would produce about \$3,500,000 annually, and it now appears that this estimate was very nearly correct. It was proposed to supplement this by an equal amount from the various counties, making a total of seven millions of dollars available each year for purposes of highway improvement, maintenance and repair. Seventy-five per cent of the money raised by the state, the Hite-Hudson bill provides, shall be expended under the provisions of the law creating the inter-county system, which means about \$3,000,000 of state aid to each of the eighty-eight counties each year.

In Smaller Counties.

The general assembly recognized that certain of the less populous counties of the state might not be able to meet the state's \$30,000 with an equal amount, and provision is made that in such a case the state highway commissioner shall then expend the full share of that county in the improvement of its more important inter-county roads. The remainder of the funds raised, 25 per cent, are placed in the state treasury to be expended in the improvement of the "main market" roads. It was the intention of the general assembly that these main market roads—the principal thoroughfares of the state—should be built by the state without contribution from the local authorities. Some of the counties have been so anxious to obtain a share of this fund that they have put up dollar for dollar, and, in some instances, three dollars for one, for all market road money spent on their work. Before leaving this phase of the subject, it must be borne in mind that none of the money derived from the half mill levy law was available until this year. The only other funds devoted to highway improvement come from the annual tax on automobiles, which, this year, amounts to about \$550,000.

Plan in Other States.

Lest it be assumed that Ohio is going too far in the matter of appropriations for road improvement, attention is directed to the appropriations made for the current year by other states. Following is the latest available data: Iowa, \$1,310,000; Maryland, \$3,700,000; Michigan, \$4,183,972; Minnesota, \$5,672,254; New York, \$6,000,000; Illinois, \$1,300,000; Maine, \$1,540,000; Massachusetts, \$2,447,315; Mississippi, \$1,720,000; North Carolina, nearly \$5,000,000; North Dakota, \$2,565,000; Oregon, \$3,288,000; Pennsylvania, \$3,500,000; South Carolina, \$1,000,000; Virginia, about \$2,000,000; West Virginia, \$2,286,557; and Wisconsin, \$1,250,000. (Compared with other states, Ohio's appropriation of \$3,500,000 is neither extraordinary nor out of proportion.) Needless to say, all of these states, together with California, Alabama, Arizona, Colorado, Delaware, Idaho, Kentucky, New Jersey, New Mexico and others, have long ago discarded the so-called "county" plan in favor of the "state" plan, and are all prosecuting the improvement of their more important roads through a state or centralized bureau.

Of all the progressive states of the Union West Virginia was the only one to go back to the antiquated county plan, after it had once adopted the state plan, and after that state had experimented at great cost for a few months, it again returned to the state plan.

Ohio Under State Plan.

Examination of the records on file in the office of the state highway commissioner discloses the following:

Since Jan. 1, 1914, the state highway department has contracted for, or assumed the care of, in behalf of the various counties about 1,000 miles of improvement. Of this amount it will actually complete, before the close of the year, approximately 400 miles. Every dollar's worth of this work was offered for sale under public, open and competitive bidding and, with two or three exceptions, the contracts were awarded to the lowest bidder, the exceptions being made upon the objection of county commissioners, or for other good and sufficient cause which led the department to believe that the low bidder could not satisfactorily perform the conditions of the contract. On Aug. 4 of this year the state opened bids on \$2,000,000 worth of work, these bids affected the roads in some fifty-seven counties and contemplated the systematic improvement of ninety-eight sections of inter-county highways, each designed and so located as to form a part of a comprehensive scheme or plan to improve the roads of the state as a whole; each link in a great chain of highways laid out to serve the people of the whole state, instead of a part of the state.

That the commissioners of the various counties are in full accord with the present plan is attested by the fact that all of the counties but one have applied for state aid, and are co-operating with the state highway commissioner in the selection and location of the roads to be improved. The state highway commissioner might properly be designated as the "Big Brother" of the county commissioners, in that his work in no wise encroaches upon their field of endeavor, since it must be remembered that the state department is concerned only with the improvement of the more important or inter-county roads of the state—less than 12 per cent of the whole. Further, it should not be forgotten that all inter-county contracts let by the state, except in very few instances where the state defrays the entire cost, must be approved by the county commissioners, and they have voice in the selection of the material and sole control over the selection of the particular route to be improved. In passing it is worthy of mention that as a direct result of county co-operation every dollar of the money appropriated for use this year will be required to cover the payment of contracts entered into, or now under contemplation.

But there are other accomplishments of the present highway department which are deserving of special mention. Among them may be enumerated the establishment of a testing bureau, which is maintained at the Ohio State university, and which has been brought up to a high degree of efficiency; the organization of completely equipped construction, maintenance and repair, and bridge bureaus; the establishment of inventory and property check systems; the building of a state "experimental road," as the result of which county commissioners and others interested in road construction may obtain first hand data in relation to various types of road constructive materials; the organization of an educational bureau, modeled after the lines adopted by the federal office of good roads at Washington, and which seeks to instruct road building officials of the state and counties as to the best methods of practical and economical road building. In connection with the educational work of the state and federal highway departments, it has been said by the United States director of public roads, Hon. Logan Waller Page, appointed by the national president, "the monies available for highway improvement are all too small to permit a duplication of effort," and "duplication of effort" can only be avoided by conducting an intelligent educational campaign. Not least among the achievements of the department is the mapping out of the inter-county and main market system of the state, and which gives to Ohio the model highway system of America. Ohio will be the first state in the Union to rehabilitate and properly restore a great portion of the first and only great national road ever built by the federal government, and all of this fine, historic old highway which runs through Ohio, thirty miles of which is now under course of construction, will be actually placed in good condition within the next two years.

Plans For Bridges.

Under the direction of the present highway commissioner, the bureau of bridges has this year prepared plans and estimates for more than 1,775 structures. It furnishes county commissioners and others with all manner of information and completed plans for any character of county bridge or culvert structure, free of cost.

The maintenance and repair bureau has repaired 105 sections of roads in 57 counties, making a total of 287 miles of roads, out of the automobile license fund. It is proposed to gradually take over the care of all of the more important roads in every county in the state, after their initial construction, thus permitting the counties to devote their energies to the construction, maintenance and repair of the less important roads.

Up to within the past year or two, little attention was given to the testing and analysis of the materials used in the construction of roads. And yet the importance of such work can not be overestimated, if proper consideration is given to the durability and future life of the roads. Now, with the operation of a state highway department, every piece or part of material which goes into Ohio's roads is subjected to test as to its consistency and soundness and more than this, every county road building official is at liberty to take advantage of the state's testing laboratory, so that the counties, in building their roads, may exercise the same care. This laboratory service is free of cost to the counties and makes unnecessary the maintenance of a laboratory in each of the eighty-eight counties of the state.

What Under County Plan?

With each of the eighty-eight counties of the state working independent-

ly of each other, endless confusion, duplication of effort, the construction of roads which would not connect with the roads of adjoining counties, greatly increased cost, lack of uniformity and serious loss of time would undoubtedly follow. The road builders of one county would have no means of knowing the exact plans of improvement contemplated by another county. They would know nothing of proposed width of roadways and bridges, or of the kinds of materials to be used. The result would be the construction of a crazy quilt or patch-work system of roads which would retard the growth and prosperity of the state to such a degree that it would be set back a quarter of a century. Coming down to the matter of cost, it is quite obvious that the same figures could not be obtained on short sections of roads such as would be given out for improvement by each of the eighty-eight counties, as is possible under the present system, with a central bureau or department in a position to ask bids on several miles or more, running through a number of counties. Again, under the present system, contractors and material men require only a small selling force, having to deal with but one buying source, while under the county plan they would be compelled to maintain a force large enough to include eighty-eight different purchasing sources, and every dollar of this additional expense would be tacked on to the price of the road to be improved.

Federal Aid For Ohio.

The federal office of public roads at Washington has repeatedly declared itself in favor of the statewide system of road betterment. Recently Ohio was fortunate enough to obtain \$120,000 out of a total appropriation of \$500,000 for the improvement of the country's post roads—and which is nearly twice the amount awarded to any other state—as federal aid in the improvement of the old National road between Zanesville and Hebron, about twenty-four miles. This would not have been possible under the county plan. Ohio has reasons to expect millions of federal aid in road building in the near future, with the passage of the Shackleford or other road improvement bills now pending in the national congress. It might not participate in a single dollar of the great funds to be awarded the various states if we return to the county plan, thus serving notice upon the federal government and to our sister states that we have forsaken the plan adopted by all of the progressive states and have returned to the methods of the mound building Indians and the buffalo. As a direct result of the state being able to contract for the improvement of the whole of that part of the old National road running through Muskingum and Licking counties, a saving of about \$50,000 was effected. This is only illustrative of the economy to be found in that plan which permits the entering into contract for many miles at a time.

The county plan will not do. It has been condemned by every road building expert, by the federal government, by every progressive state and by every student of the subject everywhere. It is costly, cumbersome, impractical and meaningless. The county commissioners themselves, generally speaking, do not favor it, for a year ago, at their annual meeting held in the city of Columbus, when it was proposed that the automobile or maintenance fund be divided equally among the counties, instead of leaving it with the state highway department, as at present, not a single vote was cast in favor of the resolution, even its author finally voting against it.

On the other hand, the state system of highway improvement has met with nation-wide commendation and approval. It means the construction of economical, practical and beautiful roads connecting anywhere and everywhere. It means perfect co-operation between township, county, state and nation. It means that the people will get the best possible results at the least possible cost. It means the elimination of the opportunity for graft and corruption, for the reason that the state checks against the counties and the counties check against the state. And finally, the continuation of the system in Ohio will mean that matters of road improvement will be kept out of politics; that the health, happiness and prosperity of the community will be better served, and that the state will maintain its present proud position in the vanguard of the progressive states whose people fully realize the importance of a completed inter-county system.

SEE-SAW

SUCCESSORS OF ONE SIDE ALONG BIG BATTLE FRONT, ARE COUNTER BALANCED

By Forward Movements of the Other —Bitter Comment On Destruction of Reims.

(ASSOCIATED PRESS TELEGRAM)

Paris, Sept. 21—6:50 a. m.

There is little change in the situation in the great battle of the Aisne, according to the latest official announcement. On the extreme left of the allied forces, which continue to bear the brunt of the fighting, at some time Saturday or Sunday, (the official reports do not bring out the time clearly), the Germans in a furious counter attack gained some ground, which, however, was speedily regained.

Elsewhere, along the big battle front the successes of one side have been counterbalanced by forward movements of the other but military experts here claim the allies have bettered their position so far as it affects the continuation of the struggle since they have reached and entrenched themselves on high ground.

The best opinion here, however, inclines to the belief that the frontal attacks of forces, both apparently of equal strength, will continue for some time yet without result unless something unforeseen happens.

The havoc wrought in the famous cathedral of Reims by the German guns, as told in official and other despatches from the front, is the subject of bitter comment here. It is stated that the French government will lodge a protest with all the powers regarding the bombardment of the cathedral which, unofficial despatches say, was sheltering several hundred German wounded and flying a Red Cross flag.

Copies of letters said to have been found on wounded German prisoners continue to be made public here. One credited to a Brunswick non-commissioned officer reads:

"Our life is not a gay one. For nine days we have camped in water and we are living on beets and sugar. Bread is a luxury. The tension is frightful and our losses are enormous. There is not a single officer left in my company which has been reduced from 250 to 60 men."

Other letters of a similar tenor are given out and wonder is expressed at how men living on raw vegetables have still the courage to fight with such desperation, especially under the most trying weather conditions.

AN OVERBURDENED WIFE

If the work that women do and the pains they suffer could be measured in figures, what a terrible array they would present! Through girlhood, wifehood and motherhood woman toils on, often suffering with headache, pains in side, headaches and nervousness which are tell-tale symptoms of organic derangements which Lydia E. Pinkham's Vegetable Compound—made from roots and herbs—can undoubtedly correct. Women who suffer should not give up hope until they have given it a trial.

HIGH PRAISE FROM WEHRE FOREMAN

Well Known Citizen Gains Health and Comfort by Using Nerv-Worth.

Wine Bert Stouffer, the highly esteemed foreman of the Wehrle stove works, is the latest Newark man to come forward with a statement of personal experience based on the use of Nerv-Worth, the unguished new nerve tonic which T. J. Evans drug store is selling in such immense quantities and which is bringing enduring benefits to hundreds of Newark people who have been burdened with disorders of the nerves. Note Mr. Stouffer's telling words:

"I was in a bad way from nervousness. Had pains in my stomach and a lump there. No digestion and my sleep at night averaged no more than 3 1/2 hours, with night sweats at times. Of course I was constantly tired in the morning. That was before taking Nerv-Worth. After taking it for ten days my condition is as follows: I sleep 8 hours per night, can eat any old thing, the lump in my stomach is gone. Take it all in all I am a better man in every way than I have been for three years."

Mr. Stouffer puts the case so honestly and forcibly that little comment is necessary. Those who know him and suffer as he did will hardly need to be urged to profit by the use of Nerv-Worth. Why wait and suffer? Nerv-Worth is just as speedy and certain against other forms of nervous debility as it was in banishing those which made Mr. Stouffer's life a burden—just as effective against palpitation of the heart, trembling, sick and nervous headaches, pains in head, chest and sides, weakness and weariness, cold feet, lack of appetite, etc.

See the Nerv-Worth specialist at the T. J. Evans drug store and get a free sample dose of the medicine.

Health Recipe.

One time a man asked the poet Longfellow how to be healthy, and this is the answer he received:

Joy, temperance and repose
Shut the door on the doctor's nose.

Lieutenant.

The word "lieutenant" means, literally, "holding the place." Thus a lieutenant colonel holds the place of a colonel.

There are two opera houses in Antwerp, Belgium, subsidized by the municipality. One produces opera in French, the other in Flemish and German.

Travel of Roots.

Roots travel amazing distances in search of their requirements. A timber merchant, excavating for a sewer in England, found an elm root one and a quarter inches in diameter and sixty-three feet long, running through a bed of sand from the tree to the sea.

The aggregate length of root thrown out by some plants is almost incredible. A cucumber will, within its short life of about half a year, throw out from ten to fifteen miles of roots.

Clover roots will go straight down to a depth of six to nine feet in search of moisture, and coltsfoot, one of the most powerful and persistent of weeds, sends its suckers down to an even greater depth.—London Stray Stories.

Norwichists in Norway make \$7.50 a week.

Atlas E-Z Seal Jars

This jar stays sealed—absolutely airtight—until you want to open it.

And it is as easy to open as to close. Raise the spring! That is all you have to do. The top is all glass—absolutely sanitary.

are made of green glass—to exclude the light and prevent discoloration.

The mouth is extra wide—almost as wide as the jar itself—so wide that you can put in plums, apples, pears, peaches, as well as corn, beans, tomatoes and other vegetables, without cutting them. In that way flavor and freshness are retained.

Made in half-pint, pint, quart and half-gallon sizes. Most grocers sell E-Z Seal Jars. If yours does not, let us know.

Write for book of recipes. 20 pages; 60 recipes. Some by Marian Harland; some by famous Virginia cooks.

Hamilton Coupons are packed in these jars.

CHINESE CREWS PUT IN PRISON FOR A MUTINY

(Associated Press Telegram)
Honolulu, Sept. 21.—Seventy mem-
bers of the Chinese crews of the
German refugee steamers Longmoon,
Staatssekretar Kraetke and Gouver-
neur Jaeschke of the Hamburg-
American line were imprisoned here
last night on mutiny charges made
by the captains of the vessels.

Just accommodations are taxed by
the number of Orientals under ar-
rest, but the Chinese of the German
steamers say that they fear further
trouble from the 150 Chinese still
aboard their ships. They said the
Chinese had refused to stay aboard
any longer. The crews versions of
the trouble, as related by the Chinese
consul is that the alleged mutineers
were taken from Chinese waters on
the promise they would be returned
in a week, but that they were taken
to the Marshall Islands, instead and
forced to work day and night coaling
three German cruisers. They were
then brought to Honolulu, they told
the consul, and given to understand
that their stay aboard ship in this
port would be indefinite.

The three Hamburg-American
ers on which the trouble occurred
are comparatively small vessels,
which ran in here to avoid the
possibility of capture. When the
Longmoon came in a few days ago,
she did not stop at Quarantine and
went sent back outside the harbor
by the port officers.

**THE EASIEST WAY
TO END DANDRUFF**

Stop Falling Hair and Itching Scalp
—At Once

There is one sure way that has
never failed to remove dandruff at
once, and that is to dissolve it, then
you destroy it entirely. To do this,
just get about four ounces of plain,
common liquid arvon from any drug
store, (this is all you will need), ap-
ply it at night when retiring, use
enough to moisten the scalp and rub
it in gently with the finger tips.

By morning, most if not all, of
your dandruff will be gone, and
three or four more applications will
completely dissolve, and entirely de-
stroy every single sign and trace of
it, no matter how much dandruff
you may have.

You will find all itching and dig-
ging of the scalp will stop instantly
and your hair will be fluffy, lust-
rous, glossy, silky and soft, and look
and feel a hundred times better.

If you value your hair, you should
get rid of dandruff at once, for
nothing destroys the hair so quickly.
It not only starves the hair, and
makes it fall out, but it makes it
stringy, straggly, dull, dry, brittle
and lifeless, and everybody notices
it.

**B. & O. MAKING
FOR BREVITY IN
COMMUNICATION**

Using the telegraph for communi-
cation which can be conducted by mail
is being discouraged amongst officials
and employees of the Baltimore and
Ohio railroad in an effort towards
greater efficiency of service and econ-
omy in expenses.

A circular has been issued by Gen-
eral Manager C. W. Galloway, urging
that telegraphing be done only where
necessity required the use of wires
and in this way operations will be
quicker by avoiding delays to im-
portant messages which congestion
sometimes seriously interferes with.

It is the sense of the general man-
ager's circular that next to train or-
ders, such messages as relates to car
service to shippers and other messages
of equal importance shall take prece-
dence.

Abbreviating proper names is sug-
gested and a further recommendation
in the interest of brevity is the elimi-
nation of superfluous words and
phrases. On a railway system the
size of the Baltimore and Ohio, where
fully 20,000 messages, varying from
two words to one thousand words in
length, are handled each day, the im-
portance of being brief is clearly
seen. As a substitute for the telegraph
the railroad has adopted a mailgram
service for quick communication in
the transaction of its business be-
tween departments, messages of this
character being handled by train ser-
vice and with great dispatch.

**MASKED BANDITS
SECURE PLUNDER
FROM FAST TRAIN**

(Associated Press Telegram)
Los Angeles, Sept. 21.—Posses in
automobiles scoured all the highways
hereabout today, seeking trace of
two masked men who robbed the
Southern Pacific fast eastbound pas-
senger train No. 75 at Burbank, 11
miles north of here last night. Re-
ports of the robbery amounted to
\$350, with some jewelry. The fact
that it was the second train robbery
at the same place within two months
made the authorities especially anx-
ious to capture the bandits. The
previous robbery netted some
\$2200.

Last night's affair was confined to
the observation car. The robbers,
masked and carrying sawed-off shot-
guns and revolvers, swung aboard
the rear end of the train.

The women in the car were told to
keep their money and jewelry.
Twenty-five men were robbed in a
few minutes and the bandits pulled
the bell cord and dropped off at a
station four miles further up the
line.

Best Laxative For Children

When your baby is cross and
fretful instead of the happy,
laughing little dear you are ac-
customed to, in all probability
the digestion has become deranged
and the bowels need attention.
Give it a mild laxative, dispel the
irritability and bring back the
happy content of babyhood.

The very best laxative for
children is Dr. Caldwell's Syrup
Pepsin, because it contains no
opiate or narcotic drug, is pleas-
ant tasting and acts gently, but
surely, without griping or other
distress. Druggists sell Dr. Cald-
well's Syrup Pepsin at fifty cents
and one dollar a bottle. For a
free trial bottle write to Dr. W.
B. Caldwell, 451 Washington St.,
Monticello, Ill.

SPLIT

OF THE FRENCH AND ENGLISH
FORCES ATTEMPTED BY
GERMAN ONSLAUGHT

Three Days Allies Stood Splendidly
at Times Repulsing Attack
With Bayonet.

(Associated Press Telegram)
London, Sept. 21.—The corres-
pondent of the Times near Soissons,
continuing his story of the opera-
tions on the Aisne after the allies
had successfully crossed the river,

“On Tuesday the 15th, a severe
attack was made by the enemy, who
evidently had been reinforced and
was determined, if possible to break
through the allied lines between Vic
Sur Aisne and Soissons, that is be-
tween the British and French forces.

This attack was heralded by a
tremendous outburst of heavy artil-
lery fire, followed by a systematic
advance of the infantry and machine
guns. The allies forces stood their
ground splendidly, pouring a deadly
fire into the attackers and finally in
certain cases repulsing them at the
point of the bayonet. This battle
continued with unabated fury all
night and throughout Wednesday
and Thursday.

“On Wednesday night the Ger-
mans attacked the French furiously
in the region near Reims. They
attacked the British with equal
fervor in the neighborhood of
Soissons, when again their losses
were enormous.

“The first sign of weakening was
noticed Thursday afternoon after the
fierce attacks of that day had been
repulsed. The German losses were
colossal. The Germans charged in
close formation, with utter reckless-
ness of human life.

“The whole idea of German strategy
seemed to be to throw plenty of
weight in the belief that some of it
is bound to get through.”

WOMEN SUFFER FROM WAR

Thousands of women of Europe are
left destitute, unprotected
and in misery.

The hearts of the women of
America go out to their sisters in
Europe who are left in misery and
want. American women often suffer
from derangements that are purely
feminine.

At the first symptoms of any de-
rangement of the feminine organism
at any period of life the one safe,
really helpful remedy is Dr. Pierce's
Favorite Prescription.

Tens of thousands of women have
taken it with unflinching success for
every conceivable ailment and dis-
ease of a womanly nature. It is a
woman's medicine and as such its
might and marvelous restorative
power is acknowledged the country
over.

Dr. Pierce's Favorite Prescription
is a true friend to women in times of
trial and at times of pain when the
organs are not performing their
functions. For headache, backache,
hot flashes, catarrhal condition,
bearing down sensation, mental de-
pression, dizziness, fainting spells,
lassitude and exhaustion women
should never fail to take this tried
and true women's medicine.

Prepared from nature's roots and
herbs, it contains no alcohol nor nar-
cotics. It's not a secret remedy for
all the ingredients are printed on the
wrapper. Sold in either tablet or
liquid form. If you want a specialist
in women's diseases to diagnose your
case absolutely free of charge write
Dr. Pierce, Invalids' Hotel, Buffalo,
N. Y. today; 126 page book on wom-
en's diseases sent free.

POSTAL SAVINGS DEPOSITS GROW DURING AUGUST

(Associated Press Telegram)
Washington, Sept. 21.—Deposits
amounting to \$95,000,000 were in the
9553 postal savings banks of the
country on Aug. 31 last, according to
a preliminary examination today of
reports to the postoffice department.
The increase in August was the
largest since the system was inaugu-
rated, amounting to about \$4,200,000.
New York City with deposits
totaling \$5,254,544 lead all other of
fices. This office, with an increase
of \$26,942 in August, also made the
largest gain for the month. The
average daily receipts in New York
were about \$50,000.

Other offices showing large in-
creases in August were in part
Cleveland, \$45,000; Cincinnati,
\$26,000; Toledo, \$24,000; Columbus,
\$22,000.

FRENCH REVIEW OF NAVY'S WORK SINCE OPENING

(Associated Press Telegram)
Bordeaux, via London, Sept. 21.—An
official communication addressed to
the navy and reviewed the work of
the fleet since the outbreak of hostil-
ties, says:

“The navy was called upon to cov-
er the return of troops to France from
Africa, which was done satisfactorily.
Assisted by the British forces in
the channel and the North Sea, the
command of the fleet was attained
from the first day the war broke out.

“The French and British fleets also
assured the security of the Mediter-
ranean after the flight of the Goeben
and the Breslau, and the enemy has
not appeared again.

“The German fleet does not leave
its base. Nevertheless the British
fleet was able to fight a naval battle
off Heligoland from which it emerged
victorious. It is impossible to know
whether the enemy's fleet will end by
accepting the challenge, but mean-
while the allied squadron is mistress
of the sea and is blockading the Ger-
man and Austrian coasts, forcing the
enemy to live almost exclusively on
their own resources, and to certain as-
surance of ultimate success for us if
the war is prolonged.”

The communication proceeds to
show that French seaborne trade con-
tinues to enjoy full liberty of move-
ment and concludes by emphasizing
the manner in which the navy and
the army have co-operated for the defense
of the country.

Theatres

Auditorium Tomorrow.
The manager of the Auditorium
received the following telegram to-
day from Edw. L. Moore:

“Al H. Wilson in ‘When Old New
York Was Dutch’ appeared at Court
theater, Wheeling, giving unbound-
ed satisfaction. Wilson sang super-
bly. He never was in better voice.”
As refreshing as a breath of spring
ozone fresh from the meadows is Al
H. Wilson in the quaint offering,
“When Old New York Was Dutch,”
in which he will be seen as Metz von

Al H. Wilson in “When New York
Was Dutch.” Auditorium,
Tuesday, Sept. 22.

Freiburg at the Auditorium, Tues-
day, Sept. 22. The Dutch of early
New York were interesting people
and the author of Mr. Wilson's ve-
hicle has endeavored to picture them
as true to life as possible. The dif-
ferent scenes of old New York and
the sea coast surrounding it are all
that the story calls for, and of ab-
sorbing interest when comparison is
made with the New York City of
the present day. The play itself is
a delightful combination of humor
and pathos, made more interesting,
perhaps, by the tuneful folk songs
introduced by Mr. Wilson.

Kellerman Pictures.
The Kellerman pictures conclud-
ed a four day engagement at the
Auditorium last night having played
to “big business.” The Auditorium
management announces that the at-
traction will play a return engage-
ment in November.

Beginning Wednesday.
“The Rise and Fall of Napoleon,”
a most stupendous military produc-
tion depicting the life and military
campaigns of Napoleon will be
thrown upon the screen at the Audi-
torium Wednesday, Thursday and
Friday of this week.

“Honey Boy” Minstrels.
George Evans’ “Honey Boy” Min-
strels, represented as “America's
largest, best and only first-class
minstrel organization” will be seen
at the Auditorium, Saturday, Sept.
26, matinee and night. For this, the
seventh year of the “Honey Boy”
company, George Evans has made
what is pronounced as a notable pro-
duction for this class of entertain-
ment. A scenic environment which
provides for special settings for
every feature of the show, is abso-
lutely new.

**HYDROPLANE GETS
SPEED UP ON WILES.**

(Associated Press Telegram)
Chicago, Sept. 21. Speed of more
than 60 miles an hour was develop-
ed by the hydroplane IV, a forty-foot hy-
droplane owned by James A. Wiles,
of Chicago, in a trial spin on Lake
Michigan yesterday. The speed
was claimed to be the greatest a
boat was ever driven. Its engines
turned 1,600 revolutions per minute.

PREMIER WILSON IS PRAYERFULLY WORKING FOR PEACE.

(Associated Press Telegram.)
Washington, Sept. 21.—Presi-
dent Wilson said today that he
was prayerfully working for
peace in Europe but indicated
that nothing of a definite or
formal character had yet been
done. He told callers that pub-
lication of stories that he
would call a world conference
to discuss peace interfered
with his serious work. The
president declared that a
world's crisis existed and that
only serious remedies should
be discussed.

NO PEACE

IS EVEN BEING CONSIDERED BY
GERMAN EMPIRE, SAYS BER-
LIN OFFICIAL ORGAN.

War Was Ruthlessly Forced Upon
Kaiser — Victories Claimed in
Statement.

(Associated Press Telegram)
Berlin, via London, Sept. 21.—
Commenting upon the alleged state-
ment of Count von Bernstorff, the
German ambassador to the United
States that his nation was looking
for peace upon condition that the
city of German territory would be
preserved, or as so presented in
Washington dispatches, the North
German Gazette, the official organ,
declared in its issue of Sept. 20, that
the government had not even con-
sidered the matter.

“The assertions are intended,” the
paper says, “to foster the impression
that we have tired of war and in
spite of our victories in the east and
in the west. Past overtures may not
be looked for until the war, forced
ruthlessly on our people, is brought
to an honorable conclusion.”

The official statement given out
last night made mention of the bom-
bardment of Reims. It said that
Reims was in the battle lines of the
French and that the Germans were
obliged to bombard it. The neces-
sity for this action was regretted but
the fire of the French, it was stated,
came from that direction. Orders to
save the cathedral at Reims have
been given.

The statement also made refer-
ence to the progress on other points
of the line. In this respect it says:
“The attacks on the French are
progressing at several points in the
central Vosges. At Donon, near
Senones, 27 miles southeast of Lun-
ville near Saales, in the German Vos-
ges, their offensive has been repul-
sed.

“There is no news from the east-
ern (Russian front) camp.”

DULL, SPLITTING, SICK HEADACHE

You take a Dr. James' Headache
Powder and in just a few moments
your head clears and all neuralgia
and pain fades away. It's the quick-
est and surest relief for headache,
whether dull, throbbing, splitting or
nerve-racking. Send someone to the
drug store and get a dime package
now. Quit suffering—it's so need-
less. Be sure you get Dr. James'
Headache Powders—then there will
be no disappointment.

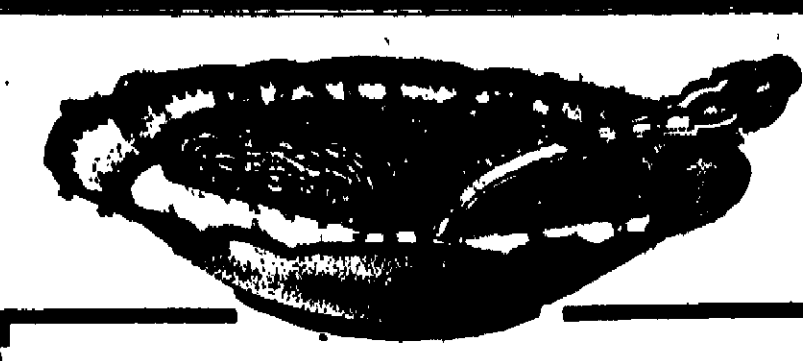

HOME FOR AGED CARPENTERS IS NOW PROJECTED

(Associated Press Telegram)
Indianapolis, Ind., Sept. 21.—Es-
tablishment of homes and sanatori-
ums for sick and aged members of
the union probably will be the most
important question to come before
the United Brotherhood of Carpen-
ters and Joiners of America which
opened its 18th general convention
here today. More than 500 dele-
gates from the United States and
Canada are in attendance. Today's
session was given over to welcoming
addresses and organizing.

The carpenters' organizations, by a
referendum vote last winter, with-
drew from the building trades de-
partment of the American Federation
of Labor and later entered into a
“defensive and offensive” alliance
with the bricklayers, masons and
plasterers' international union which
is not affiliated with the American
Federation of Labor. The withdrawal
which was due to jurisdictional
disputes, caused a stir in labor cir-
cles, and for a time it was said an
effort was made to have the orga-
nization suspended from the federa-
tion.

Switzerland's President.
There is one highly civilized country
in which not one person in four could
give their ruler's name. That country
is Switzerland. One reason why the
president is almost unknown either by
name or by sight is that he is not a
public figure at all. He has no pri-
vileges as president and no official out-
form—not even of the army. Switzer-
land has a fresh president every year.
He has no personal authority as presi-
dent and is practically only the speak-
er of Switzerland's unanimous little
parliament. It is recorded that at a
meeting of Swiss business men no one
could recall the name of the president.
The waiter was asked. He happened
to know, because the president was
his uncle.—Philadelphia Times.

The Most Costly War

that has involved the whole human race for all
time is the conflict between Nature and Disease.
The first move in the warfare against Disease is
to clear the system of all the accumulated toxins
of past food follies by eating Nature's food—

SHREDDED WHEAT

the food that keeps the bowels healthy and ac-
tive by stimulating peristalsis in a natural way
and at the same time supplies all the tissue-
building material in the whole wheat grain pre-
pared in a digestible form.

“War prices” need not disturb the housewife who
knows the nutritive value and culinary uses of
Shredded Wheat. It contains the maximum of nu-
triment at smallest cost. Delicious for breakfast
with hot or cold milk or cream, or for any meal
with sliced pears, sliced peaches or any other fruits.

“It's All in the Shreds”

The Silent Circle of The King's
Daughters and Sons will meet with
Mrs. Cella Hirst, 24 Clinton street,
Tuesday evening at 7:30.
Suffrage Speakers Coming.
Miss Rose Livingstone of New
York and Mrs. Myron B. Vorce of
Cleveland will speak for suffrage in
Newark on Oct. 9th.
(Called to Pittsburgh.)
Mrs. Sam Kuhn was called to
Pittsburgh by the serious illness of
her sister-in-law, Mrs. Thomas Ewing,
who formerly lived in Newark.
Bitten By Spider.
C. F. Rader, manager of the Hub
Clothing store here, is confined to
his Coshocton home, suffering from
blood poisoning following the bite
of a spider which he attempted to
kill while working at the Buckeye
Clothing store at Coshocton. The
infection has been checked and his
physicians believe there will be no
further trouble.

Cabbage for Krout.
Farmers in the cabbage district of
the state in the vicinity of Clyde and
Fremont are beginning to gather
their crops and haul it to the kraut
factories. The increased supply is
pounding down prices and where it
formerly brought \$1 a ton a few
weeks ago only \$5 per ton is being
paid at the present time. The present
crop is one of the largest of
recent years.

Home From Auto Tour.
Mr. and Mrs. D. H. Hickey, who
have been touring the east and visit-
ing at the home of Mr. Hickey's
sister, Mrs. W. F. Kinney, on Oliver
street and the Shore Road, Brook-
lyn, N. Y., have arrived home return-
ing by the way of Niagara Falls.
They were accompanied by Mrs.
Dowdy and son William, who will
visit the Hickey home for an indefi-
nite time.

Jurors day at the County Fair.
Friday Oct. 2nd will be known as
"Jurors" day, and a pressing invita-
tion has been extended to all Lick-
ing county Common Pleas Court
jurors; as an inducement, they will
be admitted to the quarter stretch
free on that day; it will be neces-
sary, however for all to call, prior to
Friday Oct. 2nd at the office of
Clerk of Courts in the Court House
and secure a badge.

Rushing the Paving.
The work of paving Main street
at Centerburg is progressing rapidly
and the contractors expect to have it
finished within a short time. They
were busy last week grading that
part of the street between the pub-
lic square and Hartford avenue.
This week grading will be done be-
tween Hartford avenue and Ewing
street. The paving in the business
section of the village will be opened
for traffic within a short time.

Tomorrow's Equinox.
Tuesday, September 22 will be the
autumnal equinox. On that day the
sun is in the equator and passed
through one of the equinoctial
points. This happens twice a year.
In the spring, March 21, it is known
as the vernal equinox and in the
fall, September 22, the autumnal
equinox and at this time the day and
night is equal the world over. The
usual storm is noticeable by its ab-
sence thus far, and the predictions do
not anticipate one.

Miss Dillin Will Speak.
Evangelist Lillian Dillin, of Co-
shocton, daughter of the late Rev.
L. B. Dillin and sister of the late
F. S. Dillin, will speak in North New-
ark at the Christian Union chapel, corner
Maple and Norton avenues, Wednes-
day 7 p. m., September 23rd. An
urgent invitation is given to all to
attend. Come early, as the services
will commence promptly at 7 o'clock,
Standard Time. At the close of the
service the church will elect church
and Sunday school officers. 9-21-11

Sunday Ideal Day.
Sunday was an ideal day and
many people took advantage of the
fine weather to hold outings at the
lake and the various picnic grounds
over the county. Hundreds of auto
parties were out and all interurban
cars were crowded. The picture
shows were crowded afternoon and
evening and the streets throughout
the day were thronged with people.
Eighty-eight in the shade was re-
corded at noon and the thermometer
only fell a few degrees from that
time on until nearly midnight.

Lodge Raises Dues.
The Reindeer lodge at a meeting
held Sunday afternoon at their
quarters in South Park place decid-
ed to raise the dues of all members
from \$6 to \$9 per year. Sick bene-
fits were placed at \$6 per week. The
action of the lodge was unanimous.
Nearly one hundred members were
in attendance and after the routine
business had been transacted a so-
cial session followed. The local
order has two hundred members and
in order to still further increase the
membership the charter will be kept
open for a short time at a nominal
application fee.

Sunday at North Newark.
Sunday, being Sunday school Tem-
perance Sunday, was observed by the
North Newark Christian Union school
and church, giving a splendid pro-
gram throughout. The pastor preach-
ed a temperance sermon, using John

8:34 as his text, and the children,
by classes, rendered a splendid im-
promptu program. At the evening
services the pastor used as a text
second verse of third John, taking
occasion to call attention to the
means of health, moral, spiritual
and physical, and to speak of some
of the things in society and in
present-day churchianity that conduce
rather to ill-health than to health
altogether, this was one of the best
days for North Newark Christian
Union for several weeks. The Sun-
day's services are increasing in at-
tendance and interest.

Mr. Frank Kern, an employee of
the J. Gleichauf company resigned
his position with that firm on Sat-
urday.

Preparing to Move.
Mr. and Mrs. Jack Brady of Buena
Vista street are making preparations
to leave for Youngstown, O., where
they will make their future home.

Undergoes Operation.
Frederick Swank, son of Mr. and
Mrs. E. G. Swank was operated on
this morning at the parents home
in Buena Vista street by Drs. H. H.
Postal and C. F. Legge.

To Study Osteopathy.
Dode Fulk, son of Mr. and Mrs.
Add Fulk of Granville street left
Sunday for Kirksville, Mo., where
he will enter the school of osteopa-
thy.

Birth Announcement.
Mr. and Mrs. Henry Anderson of
Boylston avenue, announce the birth
of a son Sunday, Charles Bernard.
The lad weighed 7 1/2 pounds. Mrs.
Anderson was formerly Miss Hazel
Jones.

Is Convalescing.
William C. Engstrom of the ac-
counting department of the Ohio
Light and Power company, who has
been seriously ill of typhoid fever at
his home in Elizabeth street is now
convalescing and will be able to be
out in a few days.

The Kellerman Pictures.
The Annette Kellerman photo
play, "Neptune's Daughter," closed
one of the most successful plays of
its kind every seen in the city
Sunday evening, having run for four
matinees and nights and showing to
over 7,500 people. The play will re-
turn again during the season for two
matinee and night performances.
Resigns Position.
Home From Germany.
John F. Fitzpatrick, of 324 1-2
East Main street, returned Sunday
from an extended visit in Germany,
returning on the seamer Baltic,
which carried 3,000 Americans back
to this country. Mr. Fitzpatrick wit-
nessed many stirring scenes and stated
that Americans have had much
trouble in leaving the war zone.

Motorcyclist Hurt.
Clarence Jefferies, son of William
Jefferies, was painfully injured when
he collided with an automobile in
West Main street on Sunday after-
noon. He was thrown from his
motorcycle, and the machine was
badly damaged. The rider suffered a
cut above the left eye and a cut
across the cheek. Dr. P. H. Cosner
was called to attend him.

Enjoyed Short Vacation.
Deputy Auditor C. M. Thompson
has returned from a several days
visit with his mother in Noble county.
He also enjoyed a hunting trip in
the vicinity of his old home and
succeeded in bagging two squirrels,
which he will probably have mounted
as an evidence of his prowess with
the gun. Mr. Thompson left Thurs-
day night and the two days vacation
are the first which the accommodating
deputy has enjoyed since assuming
office.

Auditorium Orchestra.
Prof. Wm. C. Schmidt has organ-
ized the Auditorium orchestra for
the season and it will appear tomor-
row evening for the first time when
Al Wilson inaugurates the theatrical
season for Newark in "When Old
New York Was Dutch." The person-
nel of the orchestra is Prof. Wm. C.
Schmidt, piano and leader; Donald
Kissane, violin; Nicholas Snyder,
flute; Jacob Stock, clarinet; Fred
Abbot, cornet; Otis Riggs, trombone;
Oscar Lampton, drums. All of the
gentlemen are experienced and
thorough musicians and a splendid
musical organization is promised.
Auditorium patrons.

VALUABLE DISCOVERY IN
COMPLEXION BEAUTIFIER.
Because of its peculiar power of ab-
sorption, also because it serves every
excellent purpose, ordinary mercurized
complexion beautifier, discovered with-
in recent years. If one uses this she
needs no toilet cream. Some use pow-
der afterward, but this is not neces-
sary. This rule for applying mercuri-
zation was has been found very satis-
factory: Wash the face with warm
water, dry thoroughly. Before the
oily dry, anoint face and neck with
the wax, but don't rub it in. The fac-
tor was to use before retiring.
allowing it to remain on all night.
For the removal of a wrinkled or
flabby condition there's nothing bet-
ter than to bathe the face in a solu-
tion made by dissolving one ounce
powdered salicylic in 4 pint witch h-
azel. Remedial results are quickly re-
flectable. Advertisement.

HIRED LIVERY
RIG BUT DID
NOT RETURN IT
Samuel Gerry, who gave his name
to the Mt. Vernon police as George
Gerry, was arrested there Friday
night on a charge preferred by Elmer
J. Jones, local liveryman, who alleged
that Gerry hired a horse and buggy at
his stable, drove to Mt. Vernon and
abandoned the rig.
Gerry was brought to Newark Sat-
urday afternoon and lodged at the city
prison. He will be given a hearing
Tuesday morning.
At Mt. Vernon, Gerry had just com-
pleted arrangements with a liveryman
to drive him to Millersburg when the
other took him in tow. The horse
and buggy had been placed in a Mt.
Vernon stable.

For laying electric wires under
ground without the expense of con-
duits a steel taped cable has been
invented.

Guam has a total population of 12-
517 persons.

"Is Your "Thinker" Worth a "Tinker?" of Course it Is.

Then Think of the Great

Licking County Fair

Tuesday, Wednesday, Thursday, Friday

September 29, 30, October 1 and 2

(Next Week)

Absolutely The Greatest Fair Ever Held in "Old Licking"

We'll Tell You Why This Week and You'll Believe It, Too.

BLACK HAND.
Rev. Mr. O. L. Martin of Zanesville, spent Tuesday at the home of Mr. and Mrs. D. T. Francis.
Miss Eloise Johnson spent Thursday evening in Hanover, as the guest of Miss Frances Reiter.
Miss Esther Dinehart of Detroit, Mich., is visiting her sister, Mrs. H. A. Albyn.
Mrs. F. S. Montgomery spent Thursday in Newark.
Mrs. Ira Major has been on the sick list.
Mr. and Mrs. George Cullison of Newark were the guests of Mr. and Mrs. H. A. Johnson last week.
Miss Esther McFarland spent part of last week in Columbus.
Cherry Hill, the beautiful country home of Mr. and Mrs. H. A. Albyn, which is located about a half mile south of Tobocon, was the scene of a jolly good time Friday evening, September 18th.
About two hundred men, women, boys, and girls of Tobocon were present, and, needless to say, all enjoyed the evening.
A short program was rendered after the singing of "America" by all.
After the program the boys gave an Indian war dance around a huge bonfire; then came a pie-eating contest. Four small boys took part in this, and Master Waldo Johnson won the prize.
A bountiful lunch was served and even the smallest ones had enough.
The remainder of the evening was spent in music, games and conversation.
After a hearty supper for Mr. Albyn the guests left.
Mr. Albyn was recently appointed superintendent of the M. E. Sunday school of Tobocon, and the vacancy caused by the death of the late Mr. Ritchie, and is to be congratulated on the able way in which he has discharged the duties of his office.

FIRM TO CHANGE ITS LOCATION
OCTOBER 1st
Phalen & Cunningham the implement and buggy dealers of 73 East Main street, have leased the James E. Jones rooms, in Elmwood court, for a term of years, and purchased the stock carried by Mr. Jones.
The new firm will move into the new location October 1, and will carry their old line and add to it the Jones stock of buggies and agricultural implements. 9-22-11

THE SICK
Mrs. Parker, who recently underwent an operation at the Newark Sanitarium for appendicitis, was removed to her home in 91 Western avenue in the Martin ambulance on Sunday morning.
Mrs. Olive Lucas was removed in the Martin ambulance, from her home in East Main street to the home of her mother-in-law, in 128 1-2 West Main street.
Mrs. Edward Long, who has been a patient at the Newark Sanitarium for several weeks, taking treatment for typhoid fever, has recovered sufficiently to return home. She was removed to her home at Stevens and Prior avenue in the Bazler & Bradley ambulance.

Abe Martin

NEW INSURANCE FIRM ORGANIZED: JORDAN & FULLER
W. V. Jordan, fire, life and accident insurance agent in Newark for a number of years, has formed a partnership with Charles W. Fuller, who has been in this city since he came to Newark. The new firm will continue to do all the business which has been handled by the old firm, and will continue to do so until the end of the year.

VOTES LITTLE WOMEN

?

THREE CASES OF TYPHOID IN SINGLE FAMILY
Three cases of typhoid fever have developed in the family of Jacob Ankler in South Second street. Those who are ill are Morris, Emma and Fred Ankler. The cases have been under observation for four or five days and the home has been under typhoid regulations during the period of observation.
No new cases developed over Sunday, according to a statement at the office of Dr. Krupar at noon Monday. However, the health department advises continued precautions to guard against the possible further development of the disease.
Mary Priest, daughter of Mr. and Mrs. Oliver Priest of Western avenue, who has been ill of the disease, was somewhat improved Monday. Her condition, however, is such that the family must remain in the hospital for the time being.

ALLSTARS LOSE AGAIN
The All Stars again lost to the Independents in the game Sunday, the score being 2 to 4. The All Stars had a number of good plays, but at the last moment they were defeated.

AN EVEN BREAK
The Newark Athletic Club, which has been playing a series of games with the Newark Athletic Club, has a score of 5 to 2.

Denison Conservatory of Music Granville, O.
Opens 20th Consecutive Year, Sept. 16, 1914.
Unexcelled opportunity for music study in all its branches under a faculty trained by leading European and American masters.
Connection with the University makes possible combined courses of classical, literary and musical studies, and affords the very best atmosphere for study of music.
Diplomas and Certificates are given at completion of established courses and have recognized standing throughout the country. F. H. is granted by the college for courses specializing in music.
Interurban connection gives Newark music students the advantage of private lessons in piano, voice, violin, and organ, at slight additional expense. For information Catalogues, etc., write,
KARL H. ESCHMAN, A.M., Director, Granville, Ohio.

SURVIVORS OF ARCTIC TRIP ARE RESCUED

CAUCASIAN MEMBERS ON U. S. CUTTER ENROUTE TO BRITISH COLUMBIA.

While Eskimos are Left in Alaska—Frozen Feet Effect Most Sufferers.

(ASSOCIATED PRESS TELEGRAM) Nome, Alaska, Sept. 21.—The eight Caucasian survivors of the Stefansson sealer Karluk, who were taken from Wrangell Island by the schooner King and Wing and transferred to the United States revenue cutter Bear, are still on the Bear under the care of the cutter's physician. The four Eskimos were landed at Nome. All the party except William L. McKinlay, the scientist, are suffering from frozen feet.

The captain of the Bear plans to take the survivors to Dutch harbor where they will be transferred to the steamer Senator, which will land them at Victoria and Vancouver.

Captain Robert A. Bartlett, late master of the Karluk who is in charge of the men, will go to Ottawa to make his report to the Canadian government.

The mail boat Silver Wave, arriving here yesterday, brought news that the Karluk relief steamer Corwin formerly a revenue cutter, while returning from Wrangell Island had struck an uncharted rock off Cape Douglas, about half way between Nome and Teller.

The United States revenue cutter Bear, at St. Michael, was notified by wireless of the Corwin's plight and in reply said she would leave immediately for Cape Douglas and try to pull the Corwin off.

The Corwin did not sight the gasoline schooner King and Wing which took the Karluk survivors from Wrangell Island and transferred them to the Bear in the Arctic ocean.

WM. HAGERMAN, B. & O. BRAKEMAN, LOST LEFT ARM

(ASSOCIATED PRESS TELEGRAM) William Hagerman, aged about 45 years, residing on Summit street this city, suffered the loss of his left arm above the elbow at Eldon Saturday evening about 8:15 o'clock.

Mr. Hagerman is a brakeman for Conductor Tom Walters on B. and O. train No. 25, and they had stopped at Eldon for orders. Mr. Hagerman was at the telegraph station and when the train pulled out attempted to mount the front steps of the caboose. He slipped, and in falling threw his arm across the rail and it was crushed off above the elbow. The accident was witnessed by the conductor and the train was stopped. Conductor Ora K. Wheeler following No. 25 assisted its crew in caring for the injured man. He was placed aboard Mr. Wheeler's train and taken to a private hospital at Barnesville where his injuries were dressed and the fragment of arm amputated.

The injured man's wife in this city was notified and she left immediately to be present at her husband's bedside. He was reported as having passed a fairly good night and will recover unless complications should arise.

State News

Coshocton's waterworks has ordered the installation of meters.

E. O. May, driving an Overland, won the 50-mile automobile race at Coshocton Saturday. Donald Renner, riding an Excelsior machine, won the 10-mile race.

George J. Shrigley, civil war veteran, died at Coshocton Saturday.

Lyon meetings at Chillicothe: Total attendance, 10,400; total collections, \$179.22. Saturday's and Sunday's attendance and collections not included. No call for converts has been extended.

RELIEF WORK IS NOT YET DONE FOR REFUGEES

May Continue Until After October 1, Judging From Americans Coming to London.

(ASSOCIATED PRESS TELEGRAM) London, Sept. 21.—Relief agents of the American government who have been busy in London since the outbreak of hostilities, may not be able to bring their work to an end by Oct. 1, if today's influx of Americans from the continent is a criterion of the number still to come from Germany.

Six hundred Americans all from Frankfurt reached the offices of the relief committee today. These are virtually all bonafide Americans and have unquestionable passports and most of them are in possession of sufficient funds to take them back home.

Only a few lack the sum necessary to pay for their passages.

These refugees say that not enough trains have been running in Germany to bring out all the Americans who wanted to leave. They wanted to come from the first, but were unable to find accommodations.

They declare that several thousand American tourists are still awaiting transportation to the Dutch border.

The London relief committee composed of American residents intends to continue its work no matter what is done by the government.

AUTO HITS CHILD BREAKING ITS NOSE

Paul Priest, the 5 year old son of Mr. A. E. Priest of Orchard street, was seriously injured late Saturday afternoon when he ran in front of an automobile.

The child had been playing near his home and was on the opposite side of the street. Seeing the approaching machine he endeavored to beat it across the street. The driver Chester S. Shelling sounded the horn, but the child became confused and the machine struck, rendering him unconscious. He was carried to his home and Dr. P. H. Cooner called. The examination showed that the nose was broken and badly mashed. The upper lip and the left eye had been badly bruised and a rib was broken.

He is resting more comfortably today.

The United States has more than six million factory employees, and 1,000,000 railroad employees.

An enthusiast may also be described as one who erects a four-story building in a two-story town.

When it affects him personally a man constructs "prosecution" as "persecution."

NASHPORT MAN FOUND DEAD IN CREEK BOTTOM

One-half mile from the Interurban station at Nashport, between the Ohio Electric and B. & O. railroads, the dead body of George Harmer, aged 50 years, a well known fruit raiser and farmer, was found Saturday morning by William Jones, a mail carrier. The body was found 15 feet below a small bridge in that vicinity.

At 8:30 o'clock Friday night Harmer was a passenger on the Ohio Electric from Zanesville and was on his way home when he is thought to have sat down to rest on the stone pier of the bridge, midway between the station and his home on the Fisher farm. The general supposition is that he fell from the stone pier 15 feet to the ground below, causing his death.

It was thought at first that Mr. Harmer had broken his neck in the fall, but Coroner Walters of Zanesville, said that Harmer, being a man weighing over 200 pounds, was stunned by the fall and falling on his face in the sand smothered him.

For the past year he had been a farmer and fruit raiser on the Dr. Fisher farm and was the first man this season to haul peaches to Zanesville. He is survived by his widow of the home and one son, Ruby Harmer, also of Nashport.

CONVENTION TO SEEK AUTONOMY FOR LITHAUNIA

(ASSOCIATED PRESS TELEGRAM) Chicago, Sept. 21.—A national convention having for its objects the obtaining of autonomy for Lithuania and to raise funds for war sufferers of the Russian provinces began here today.

The convention, according to announcement under the auspices of the Lithuanian Roman Catholic federations represents 500,000 Lithuanians in America.

In addition to obtaining autonomy from Russia the announcement states it is desired to take that part of East Prussia which, prior to the union of the Lithuanians and Poles in the sixteenth century, was a part of Lithuania. In the partition of Poland in the eighteenth century most of Lithuania went to Russia.

Among those at the meeting today were the Rev. Dr. M. Custaitis, President of the prominent educational organization "Ziburis" in Lithuania bureau of information in educator of Paris and director of the Lithuanian bureau of information in Paris.

"Means of co-operating with the efforts of our Lithuanian brethren to get autonomy will be solved at this convention," the announcement concludes.

AT CENTRAL CHURCH OF CHRIST SEVERAL TAKE FELLOWSHIP

There were 105 in the Sunday School at the Central Church Sunday. W. D. Ward, the minister, delivered two most excellent and convincing sermons during the day to very large and appreciative audiences.

In the morning he spoke on "With the Sheep or with the Goats." It was a clear and unbiased presentation of the position where every one must stand.

In the evening the minister, spoke on the conversion of Paul, or how his sins were washed away and took for his text, Acts XXII:16, "And now why tarriest thou? arise, and be baptized, and wash away thy sins calling on the name of the Lord."

He said in part that the miraculous events of the light that overcame Paul on his way to Damascus and the Lord's vision to Ananias to go and instruct Paul what to do to receive the remission of his sins, were as scaffolding to a building to get Paul and Ananias together.

It was Ananias, a human agent, and some unusual and miraculous display, that told Paul what he must do to be saved. Such are true of other conversions recorded in the book of Acts. The gospel now is carried to heathen nations through human instrumentalities.

In speaking of the human part in the redemption of souls, the speaker also emphasized the divine part without which there is no salvation.

When the invitation song was sung six persons responded. Two young men and their wives, another young man whose wife recently united with the church, and a middle-aged man from an out of town church took fellowship.

WILL ENTER O. S. U. TO STUDY PHARMACY

Mr. Reginald G. Montague left this morning for the Ohio State University, Columbus, where he will enter the Pharmacy department for the full course. Mr. Montague has spent four years in Newark, having come here from Mt. Vernon, Mass., where he attended a boy's preparatory school founded by Dwight L. Moody. He was born in London and received his early education in that city.

During his stay in Newark he has been in the employ of The Holoplane Co. the whole time. He has been for the past year and a half superintendent of the Episcopal Sunday school. He leaves Newark with the best wishes of the many friends he has made.

Edmond McCleary, 10, of Adams township, Guernsey county, died from his injuries when his arm caught in a machine belt, was torn from his shoulder.

The Cincinnati National League team will play at Mt. Vernon, Oct. 6.

The Store That Serves You Best... East Side of the Square.

Columbus Safety Director Points Out Advantages of Motor-Driven Fire Vehicles

In asking for a bond issue of \$60,000 for the purchase of motor-driven fire apparatus, Safety Director

barger of Columbus dwells at length on the superiority of motor vehicles over those drawn by horses. Efficient modern apparatus is too heavy to be easily drawn by horses, he says, and after one run, the horses are unfit for a repetition of the task for several hours. His statement follows:

"It has been demonstrated that automobile fire-fighting apparatus is more effective, especially in winter, because the equipment of the motor fire is too heavy for horses to handle, and when horses have drawn apparatus on one run of any length they are unable to repeat without a rest of several hours. Motor-driven equipment is in better shape for repeat runs; the motors are heated up to a temperature where efficiency is greatest."

"Seconds and minutes stand for human lives, not to mention the thousands and oftentimes millions of dollars property loss, is a quotation referred to by Director Barger from a recent issue of a magazine dealing with municipal affairs. 'It decreases the cost of the department, as when motor-driven apparatus is not working there is little expense for keeping it. The centralization of the fire department, due to the fact that 300 men are required to operate 100 motorized equipment, enables the municipality to dispose with numerous substations now situated in sections where property values are increasing, and to sell

the sites for prices sufficient to motorize the entire department."

According to an unofficial report circulated last week, Newark may issue bonds for the purchase of fire equipment, after the new valuation of property is certified to the proper officials. This, it is claimed, has already been done.

The city council will reconsider the bond legislation, it is said, and will increase the issue to \$16,000. This report has not been confirmed, but some action may be taken by the city council tonight.

Sentiment is growing in favor of the installation of a squad wagon or automobile, to make it unnecessary for the big ladder truck to be hauled to all fires, merely to get extra men to the assistance of the companies in out-lying districts.

That some action should be taken is the opinion of many citizens. "A big fire will catch the city unprepared," said one man Monday. "Then, after a heavy loss has resulted, some action will probably be taken. If there is any way possible for the city to raise the money, there should not be any further delay."

The present plans as outlined in the original ordinance, calls for an issue of \$12,000 worth of bonds for the purchase of a hose truck, a ladder truck and a motor patrol wagon. It is claimed that the amount is inadequate.

HEADS OF TWO DOGS WILL BE LOOKED INTO

John S. Kimball of East Newark was bitten by a dog Sunday afternoon and the animal's head was removed and sent to Columbus for examination to determine whether the canine was suffering from rabies. Mr. Kimball promptly took precautions against possible infection. Monday morning a man giving his name as Bease was bitten on a dog in South Newark. This animal was also killed and the head sent to Columbus for bacteriological examination. The health department is watching closely for any indication of rabid animals and acts promptly when any suspicious cases are brought to its attention.

DENY RETREAT OF THE SERVIAN ARMY.

Nish, Serbia, Sept. 21.—The Servian official press bureau today issued a denial of the report from Vienna that the Servians had retired from Sombor in Hungary, opposite Belgrade, after losing 4,000 prisoners and several pieces of artillery. The report admits, however, that the Servians evacuated Sombor on orders from headquarters for strategic reasons. The retreatment was accomplished in perfect order and the Austrians did not re-enter the city until two days later.

In California there are 17,000 acres on which grapes are growing; 17,000 planted to wine grapes, 119,000 to raisin grapes and 20,000 to table grapes.
